

JOB CREATION THROUGH INFRASTRUCTURE DEVELOPMENT

Residents employed by the newly conceptualized road project on the labour intensive reconstruction of municipal roads by the municipality

The road construction project has been re-engineered by the visionary leader Hon. Cllr. T.D. Ngwenya when assuming office. Informed by the high unemployment rate the council of the municipality resolved to do things differently.

Moving forward all roads shall be done by the local people in a labour-intensive project to provide a relief for the community
