

EMAKHAZENI LOCAL MUNICIPALITY

EMGWENYA / EMAKHAZENI WATER SUPPLY WILL NEVER BE THE SAME AGAIN

The Hon. Executive Mayor, Cllr. T.D. Ngwenya ensuring the newly installed generator for the Emgwenya water treatment works is installed.

The upgrading of water treatment works for Emgwenya and Emakhazeni (Belfast) plants was executed in the 2017/18 financial year. These were done through a R22 million investment in Emgwenya and R8 million investment in Emakhazeni plant. The council is envisaging clean, blue-drop compliant water supply and sustainability in supply for the entire municipality. To aid sustainable supply, generators were installed to kick in when there is electricity outage. Closure and rehabilitation of existing waste disposal site and commission of a new waste disposal site in Emakhazeni (Belfast). and In Emgwenya the distribution network is being upgraded to replace the AC pipes with the PVC pipes to improve water quality supplied to the local communities.

The above projects reflect only a few of the many projects that were executed in the 2017/18 financial year. The list includes but not limited to the electricity substation project and the connection of the houses,

installation of new water and sanitation infrastructure, construction of the new Mandela sewer pump station
